Bourbon Circuit Court.

Upon the assembling of Court Tuesday morning the case of the Commonwealth vs. Mattie Ritchie, a lunatic, was taken up and a verdict in accordance with the facts was rendered. The defendant is nineteen years of age and from infancy has been bereft of her mind, this being the third inquiry into her mental condition.

Fred N. Coates, manager of the Lexington Automobile Company, in proceedings for contempt of court for threatening to discharge an employee if he answers a summons to attend Bourbon Circuit Court, was fined \$25 and costs, and warned not to discharge the employee.

On Wednesday Judge Stout granted a judgment in favor of the plaintiff in the action of O. H. Peters vs. Sid Winkler. The judgment orders the deed of transfer set aside and the title of the property, a lot in North Middletown, restored to the plaintiff.

A judgment was also entered in the case of Ed. Emerson vs. A. S. Thompson in favor of the plaintiff.

A warrant for the arrest of F. Renaker, a citizen of Winchester, who was indicted at the recent sitting of the Bourbon Grand Jury on the charge of fraudulently obtaining from another his signature to a writing, was returned to court Wednesday, and made returnable Saturday, July 3. When arrested by the officer, Renaker gave bond in the sum of \$500, his surety being E. S. Bean, of Winchester.

It is claimed by the prosecution that Renaker represented himself to be a member of a Winchester firm handling a general produce business, that he had made a large shipment of eggs and other produce to Eastern parties and, needing some money, had a citizen of Bourbon to endorse his paper for the sum of \$250 when in fact, it is alleged, he had made no such shipment.

The following order was entered of record Wednesday morning:

"City of Paris vs. E. T. Hinton. In accordance with a mandate issuing from the Court of Appeals, the order overruling the plaintiff's demurrer to defendant's answer is set aside and it is ordered that defendant issue an execution against J. H. Haggard and Homer Horine, on bond filed with plaintiff's petition and that plaintiff recover of defendant its costs herein expended."

Nothing worthy of note transpired in court yesterday.

No Call for Bank Statements.

No call for a statement of the condition of State banks, as of June 30, the date on which calls usually are made, was made by Dr. Ben L. Bruner, Secretary of State, this year, but he will wait until some later date, and call on the banks for a statement when they are not looking for it. It is usual to call for a statement from the State banks on June 30, that being the end of the quarter, but this year Dr. Bruner has decided to make the calls at irregular intervals, so that there cannot be any warning or preparation for the call. Many of the State banks made inquiries over the telephone Wednesday of the Secretary of State's office about the call as of June 30, it being thought that the call would be issued.

Dr. Bruner believes that the interests of the depositors and creditors of the State banks can be protected better by not having the time for the call known, and he has adopted this plan, but the bankers over the State have not understood, exactly, as yet.

Dr. Bruner, the Republican Secretary is great on making grandstand plays in his eagerness to make the public believe that he is something extraordinary as a State Secretary, or that he is a more painstaking official than any of his Democratic predecessors, but at the close of his term it will be readily seen that he is only an ordinary Republican State official, full of talk and bluster emphasizing the big "I" at every phase of the game.

MITCHELL & BLAKEMORE.

MATRIMONIAL.

—Miss Westye Boardman and Mr. George W. Wyatt Jr., were united in marriage on Wednesday afternoon at the home of the bride's parents, on Seventh street at 2:30 o'clock, Elder Carey E. Morgan being the officiating minister.

This young couple kept their secret well, for a number of most intimate friends did not know the wedding was to be at this time. While a quiet event it was a pretty one.

The bride is the youngest daughter of Mr. and Mrs. J. U. Boardman, and is a handsome, attractive and accomplished young woman. The groom is the son of Mr. and Mrs. Geo. W. Wyatt, of near town, and one of Bourbon's industrious and substantial young farmers. The happy and popular young couple left immediately after the ceremony for a bridal trip to the lakes.

—Miss Tinnie May Jameson and Mr. Charles Stuart Clarke, were married on Wednesday afternoon at 3 o'clock at the home of the bride's parents, Dr. and Mrs. J. W. Jameson, on Pleasant street, Elder Carey E. Morgan officiating. They left immediately after the ceremony for an extended trip to the lakes.

DEATHS.

—Samuel Clay, Jr., the five year-old son of Mr. and Mrs. Samuel Clay, died at the family residence, near this city, on Tuesday at 1 o'clock a. m., after several weeks' illness. The funeral took place Wednesday morning at 10:30 o'clock. Services were conducted at the grave by Elder Carey E. Morgan. The pall-bearers were E. F. Clay, Jr., Miller Ward, Catesby Spears and John Yerkes.

TO AILING WOMEN.

A Little Sound Advice Will Help
Many a Sufferer in Paris.

No woman can be healthy and well if the kidneys are sick. Poisons that pass off in the secretions when the kidneys are well, are retained in the body when the kidneys are sick. Kidneys and bladder become inflamed and swollen and worse troubles quickly follow. This is often the true cause of bearing down pains, lameness, backache, sideache, etc. Uric poisoning also causes headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, a remedy that cures sick kidneys. You will get better as the kidneys get better, and health will return when the kidneys are well. Let a Paris woman tell you about Doan's Kidney Pills.

Mrs. J. W. Huffman, 115 N. Main street, Paris, Ky., says: "I gladly corroborate the statement I gave in 1905 in which I said that I had used Doan's Kidney Pills, procured at Wilson's drug store, and had received satisfactory results. I suffered from piercing pains across my back and through my kidneys and at times I was so miserable, that I was unable to attend to my work. Headaches and dizzy spells also added to my discomfort. Doan's Kidney Pills removed all these troubles and I have never had a return attack."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Calling in Funds.

Bandits Surrounded.

The bandits who held up the Canadian Pacific railroad express train on the night of June 21-22 are surrounded by the mounted police in the Rocky Mountains, and one has been killed.

The Burley Crop.

The pledge upon which the pool of the Burley Tobacco Society will have its efforts to pool the crop of 1909 is in the hands of a Cincinnati printer and will probably be given to the public in a few days.

Many of the most salient points were mentioned in a recent article in this paper. Perhaps the most important change in the pledge for the farmer is that clause retaining 10 per cent. of the proceeds for prize, storage and insurance. As the Society proposes to do this at cost it will eventually mean a great saving to the grower. This clause means that each grower who pools will have stock in the corporation that perform these functions to the extent of 10 per cent. of the pool.

The Equity warehouses which were formed during the last pool all paid good dividends and some of them paid their whole cost in one season leaving the property as clear profit. It is expected that this stock will pay a dividend of six per cent. and at the same time make a surplus that may be used for other purposes and possibly eventually for establishing factories if it should be considered necessary.

From this fund will also be established warehouses where its own pricing can be done and where the tobacco may be stored thus saving the charges made by the Louisville and Cincinnati warehouses for storage.

It is said that the pledge will not mention any specific portion of the crop to be pooled before the pledge is binding, but there is a feeling that it will be necessary to secure as large or larger portion of the whole crop than was the case in the last pool.

The pledges will be bound in books with stub attached. The pledge is a contract between the grower and the society and the stub contains all the conditions of the contract. The pledges will be retained in the counties where they are made and the stub sent to headquarters here. This will give a more perfect check upon the contracts and will reduce the danger of the sale of pooled tobacco to a minimum.

The campaign in regard to the pool will be quick and decisive. The campaign of information and education which was necessary in the former campaign is no longer needed. The pool is an assured success and the matter will be placed before the growers and their decision will settle the matter of a pool for once and for all time.

In State of Panic.

The Missouri River has risen three inches within twenty-four hours at St. Joseph, Mo., and is two feet above the danger line. The damage to crops is increasing and farmers in the bottoms are in a state of panic. A number of buildings were seen floating down Wednesday.

To Exclude Negroes.

The preparation of a bill to exclude negroes from employ as firemen and trainmen in Georgia was begun yesterday by a committee representing the firemen and trainmen of the Georgia railroad. The bill will be presented to the Legislature now in session.

STOCK, CROP AND FARM NOTES.

—When you can dig 44 potatoes from one hill what's the use monkeying with tobacco? That is what a farmer near Winchester did Saturday.

—When we remember that it requires 90,000 cases, or 2,700,000 dozen, eggs a week to supply the great city of New York, there need be no worry about overdoing the chicken industry. While New York is the largest city in this country, there are many other large cities, as well as hundreds of smaller cities to supply. Eggs never sell below 20 cents a dozen in New York.

—"Keep the farm crops on the farm and ship the meat and the butter and the milk and the cheese," is the common sense advice of Secretary Wilson. This insures soil fertility. Every ton of corn shipped to market loses the farm 33 pounds of nitrogen 12 pounds of phosphorus acid and seven pounds of potash. Figure this out on the basis of the printed analysis on the fertilizer bags and see how much the farm loses with each corn sale. If fed, 80 to 90 per cent., of these constituents go into manure. By the way, Uncle Jim says to be sure and haul out and spread your manure as fast as made.

—The Winchester Democrat says: "Possibly the highest price paid for many years for blue grass seed was paid by Mr. J. S. Wilson, a Paris dealer, who paid 45 cents per bushel to a number of growers of this county, who had formed a pool. The following is a list of those who sold to Mr. Wilson and the number of bushels delivered by each:

J. Harvey Hunt, 10,000 bushels; Holloway Bros., 10,300 bushels; Jos. Brown, 10,300; Ben D. Goff, 10,000 bushels; N. P. Vanmeter, 30,000 bushels; Tom Brock, 3,000 bushels; Harry Crawford, 5,000 bushels; J. Scott Renick, 3,000 bushels."

—Watermelon and cantaloupe season is now in full swing in Texas. It is estimated that about 3,000 carloads of these delicious fruits will be shipped from the San Antonio country this season. Last year between 2,000 and 2,500 carloads were shipped. The Texas Rockford cantaloupe mature about six weeks earlier than those grown in the Imperial Valley of California and thus has the advantage of the early markets. The watermelon industry of this state, next to the onion growing industry, is the greatest truck product. There are thousands of acres in watermelons throughout the San Antonio section. Growers figure on an average of from \$100 to \$125 an acre profit.

Brandenburg Acquitted.

Broughton Brandenburg was acquitted at New York Wednesday on the charge of grand larceny, growing out of the sale to the New York Times of an article purporting to have been signed by Grover Cleveland. He was at once arrested on a charge of kidnapping his stepson, James Shepard Cabanne, in St. Louis.

Tax on Tea Defeated.

After defeating Senator Tillman's amendment for a tax of ten cents a pound on tea by a vote of 18 to 55, thus concluding the schedules of the tariff bill, the Senate took up the income and corporation tax questions. Senator Aldrich said he would support the corporation tax amendment as a means of defeating the income tax, expressing the opinion that the tax would be repealed after two years or the rate materially lowered. The Democrats held that this position was a subterfuge on Mr. Aldrich's part to destroy the income tax.

Milk in Siberia.

The people in Siberia buy their milk frozen, and for convenience it is allowed to freeze about a stick, which forms a handle to carry it by. The milkman leaves one chunk or two, as the case may be, at the houses of his customers. The children in Irkutsk instead of crying for a drink of milk cry for a bite of milk. The people in winter time do not say "Be careful not to spill the milk," but "Be careful not to break the milk." Broken milk is better than spilled milk, though, because there is an opportunity to save the pieces. A quart of frozen milk on a stick is a very formidable weapon in the hand of an angry man or boy, as it is possible to knock a person down with it. Irkutsk people hang their milk on hooks instead of putting it in pans, though, of course, when warm spring weather comes pans or pails must be used, as the milk begins to melt.—Baker's Weekly.

A Wall Street Confession.

The broker street the most profitable end of the game. Perhaps you have never realized that most New York stock exchange houses with any sort of clientele maintain their offices on what they make on interest charges, which every monthly statement shows, and which not one of a hundred speculators can verify. The commission and interest charges that go to the brokerage firm make the percentage an almost impossible one to overcome. This percentage is far bigger than in roulette. Do you think you can win in the long run playing roulette? If you think you can, then go ahead and speculate. If in doubt, then let me tell you that in almost three years I had over 200 accounts, and not only have I never seen anybody make any money to keep, but I have seen many a fortune wiped out.—Everybody's.

England Losing Population.

The increasing exodus of emigrants is alarming England. Mr. Ellis Barker in the Nineteenth Century points out that the chief cause of emigration is unemployment and ill-paid employment. Lately emigration has been increasing at an alarming rate. The net total, 71,188 in 1900, rose to 133,355 in 1905 and 237,204 in 1907. "Nations which choose to rely for their food on foreign countries, and which cannot export a sufficient quantity of manufactures to pay for them, have to export men. Men are the largest of our invisible exports."

Legislation Aimed at Inebriates.

Men "visibly intoxicated" and conscious of a lingering thirst will ask for another drink at their peril if the Pennsylvania legislature passes a bill introduced by Representative M. Watson, of Indiana county. Mr. Watson would make the price of that particular drink, or even the request thereof, \$5 to \$20. It is unlawful now for a saloonkeeper to sell to a man "visibly intoxicated," or to an habitual drunkard or a minor, but the present law imposes all responsibility upon the saloonkeeper to determine the man's condition. Representative Watson would shift some of the responsibility on the man with the thirst; also upon the habitual drunkard and the minor who would ask the saloonkeeper to violate the law. His bill proposes a fine of from \$5 to \$20 for each attempt to get a drink under the circumstances.

Fear of Premature Burial.

The fear of premature burial, which prompted the late Lord Burton to direct by his will that his heart should be removed from his body, has caused many well-known men and women to order a surgical operation to be performed upon their bodies. Harriet Martineau left her doctor £10 to amputate her head, and Lady Burton directed that her heart should be pierced with a needle. The late Edmund Yates left instructions that his jugular vein should be severed, with a provision that a fee of 20 guineas should be paid for the purpose. Literary persons appear to have been particularly afraid of premature burial. Bishop Berkeley, Lord Lytton, Hans Andersen and Wilkie Collins all took measures to protect themselves from it.

College Men in Public Offices.

New England, with one-fifty-fourth of our continental area and about one-fourteenth of the total population of the states and territories, has schooled the president, four-ninths of his cabinet and four of the newly-appointed first assistants. It may be added that Henry Clay Ide, the new ambassador to Spain, is a Dartmouth man; and, forecasting the honor-roll which is to be headed by ex-President Eliot of Harvard, it seems safe to assume that New England colleges will figure as largely and brilliantly in the diplomatic as in the executive appointments. As for the judiciary, in which changes are so few that it seems ungracious to preview any, one may surely point with pride to the fact that our colleges provided four-ninths of the present supreme court of the United States—the chief justice being a graduate of Bowdoin and Yale being represented by one and Harvard by two associate justices.

Parts and Signs of Goodness.

If a man be gracious and courteous to strangers it shows he is a citizen of the world and that his heart is no island cut off from other lands, but a continent that joins them. If he be compassionate toward the afflictions of others it shows that his heart is like a noble tree that is wounded itself when it gives the balm. If he easily pardons and remits offenses it shows that his mind is planted above injuries, so that he cannot be shot. If he be thankful for small benefits it shows that he weighs men's minds and not their trash. But, above all, if he have St. Paul's perfection, that he could wish to be an anathema from Christ for the salvation of his brethren, it shows much of a divine nature and a kind of conformity with Christ himself.—Bacon.

Preached with a Broken Leg.

During the recent severe weather in England Rev. Thomas McClelland, one of the organizing secretaries of the Church Missionary society, fell at Guildford while descending a hill on his way to preach at St. Saviour's church. He managed to crawl to the church, though considerably shaken, and rested in the vestry until the time came to preach, when he succeeded in reaching the pulpit, and gave an able and impressive sermon. When the service was over Mr. McClelland collapsed, and was carried to the house of friends. It was found that his leg was broken just above the ankle. After having the limb set, he rested a few days, and was then conveyed to his home.

Holland's Way.

In Holland there are few able-bodied paupers. There is a tract of public land containing 5,000 acres, which is divided into six model farms, and to one of these is sent the poor person applying for public relief. If he voluntarily serves until he learns agriculture he is allowed to rent a small farm for himself and be what is called a free farmer. Every pauper who is thus reclaimed to honest regular industry is so much gain to the state. There is also a forced labor colony, where beggars and vagrants are sent and made to do farm and other work, whether they like it or not.

Electric Signs for "L" Reads.

Electric signs are to be extensively used on the stations of the loop of the Chicago elevated railways. According to the plans, a large sign reading, "Elevated Stations," will be installed on the elevated structure at the principal street corners. Numerous smaller signs reading, "To All Trains," will be installed at the entrance to the elevated stations, and at all other points where signs are desired those of the electric type will be made use of. After an extensive investigation into the matter it has been decided by the officials of this company that the electric sign is the best for all purposes.

Warning From Taft.

In a speech before the Yale Alumni Wednesday afternoon President Taft issued a note of warning to Congress. He declared that if the Republican party failed to live up to its promises that what was expected of it, it would be relegated to "his majesty's opposition." The President made reference in speaking of the difficulty of defining a latter-day Democrat and declared that the trouble was not altogether on that side of the house. The throng of 1,800 Yale graduates present, however, caught the significance of the utterance and interrupted the President with cheers.

BASE BALL.

TUESDAY.

The Bourbonites met the Lexington Colts Tuesday afternoon at White Park and gave them a good drubbing by a score of 8 to 2. There was about seventy-five enthusiastic fans come with the colts from Lexington and they were sure of winning the game with their star twirler, Stults, on the mound. For three innings it looked a little bad for Paris as Dugger was wild, but when he settled down it was a one sided affair. Dugger managed to keep the seven hits he gave them well scattered, while the Bourbonites had no trouble to find the great Stults and bingled out twelve nice clean hits. Dugger made a three-bagger with two men on the bags, a two-bagger afterwards and struck out eleven men. Short stop Johnson, of the Colts was first benched by umpire Dunbar and he put off the grounds by Officer Elgin, by order of Dunbar, for being unruly and insulting. The crowd of Lexington rooters were very noisy at the beginning but was soon as quiet as lambs and in bunches of twos and threes sneaked out of the grand stand. The following is the summary of the game:

Hits—Paris, 12; Lexington, 7. Errors—Lexington, 1. Earned runs—Paris, 6. Two base hits—Barnett, Dugger. Three base hits—Dugger. Sacrifice hit—Kimbro. Stolen bases—Kimbro, Elgin, Kaiser, Ochs, 2; Schmidt. Hit by pitched ball—Harper. Struck out—By Dugger 11; by Stults 4. Base on balls—off Dugger 3; Stults, 3. Left on bases—Paris, 5; Lexington, 6. Balk—Dugger, 1. Passed ball—Felix. Umpires—Dunbar and Rasche.

WEDNESDAY.

The Paris team journeyed to Lexington Wednesday and presented the colts with a game with the score 3 to 1. Poole was in the box and it was his first losing game of the season. He has pitched nine games since his arrival here, winning eight of them. It was simply an off day with the team as a whole. They hit the Lexington pitchers, Robbins and Doyle, but were unable to make the eight hits count as runs. One of the features of the game was the squabbling of the Bourbonites with the umpire, for while this was going on the Colts stole two bases, making one run. The loss of the game was no discredit to Poole, but to the whole bunch of them. They have been playing such fast ball however, that it is an easy matter for the Paris fans to forgive them for losing a game occasionally. Out of the series of five played with the colts, the Bourbonites took three of them. The following is the score by innings and summary of the game:

Paris.....0 0 1 0 0 0 0 0 0 1
Lexington.....0 0 1 0 0 0 2 0 x-3
Earned Runs—Lexington, 1. Two base hits—Sheets, Kimbro. First on balls—off Robbins 5 in 7 1-3 innings; off Doyle, 1 in 2 innings; off Poole, 2. Struck out—by Robbins, 1; by Doyle, 2; by Poole, 2. Left on bases—Lexington, 8; Paris, 12. Double plays—Kimbro, Johnson, Kaiser; Scott unassisted. Passed balls—Felix 1. Stolen bases—Robbins, Downing 2, Harper. Hit by Pitcher—Scott, Ochs. Game began 3:30. Time—2 hours and 5 minutes. Umpire—Rasche.

NOTES.

The following is from a Lexington paper; read carefully for it is one of the wonders of the age: "Paris has a snappy team and will never be beaten by a sleepy aggregation."

Hadley Williams, a new catcher and outfielder from Nashville, Tenn., has arrived and will get in the game at once. Little Felix deserves a rest for he is one of the real hard workers on the team, and has few superiors behind the bat.

Johnnie Johns, of Cincinnati, a new pitcher, is here for a try-out and comes highly recommended. The St. Louis National club paid \$3,000 to Columbus last week for the release of Mr. Johns' brother, and it is said by those who know that the one Paris has secured is the faster of the two. Johns is an all round athlete and to judge from appearances looks good. He will pitch his first game for Paris Sunday.

Pitcher Simms, the man Manager Schmidt has been trying to land for some time will be here Monday for a try-out.

President J. W. Bacon leaves Saturday morning for California and says he has three new players to leave in the hands of "Smittie" and on his return home expects Paris to be knocking at the door for first place.

We believe in everyone standing up for their rights, but the continual squabbling with umpires in the Blue Grass League by the ball players seems to have gone to the limit and patrons of the game are becoming thoroughly disgusted. Umpires make mistakes at times, and players make errors, and as the fans look over the errors of players, players should look over the mistakes of the umpire. This kicking business don't pay, for instance, in Wednesday's game while the Paris players were around Umpire Rasche squabbling, maybe just to be squabbling, the Lexington boys stole two bases, one counting a run. Then again, did anybody ever hear of an umpire changing his decision? This kicking don't do any good at all, only give a team the name of a bunch of kickers. We are in hopes that the Paris team in the future will take their

Madam, Get This Free Cake of Toilet Soap Today

We have instructed the Paris druggists to present during this week only a full 25c cake of Savon Marvelo—the ideal hot weather soap—to every woman who purchases a 50 cent jar of Crème Marvelo.

Savon Marvelo is a peroxide soap which removes all odor of perspiration from the body and prevents stain. It liberates oxygen when used in washing and makes the skin soft and clear. It bleaches the skin. One lady writes—"It certainly dissipates body odors completely."

Remember, we give this soap free to you, Madam, with every jar of Crème Marvelo which you buy. Crème Marvelo—the summer cream—will be an indispensable part of your summer outfit when you have once used it. Unlike other creams it does not leave the skin greasy nor does it stain the faintest fabrics. It will allow you to have a clear, becoming tan and will absolutely prevent sunburn.

Other Marvelo Preparations
Dentifrice—en H2-O2 Tooth powder—by forming peroxide of hydrogen in the crevices of the teeth it neutralizes the decaying food particles, at the same time making the teeth a pearly white and leaving the mouth sweet and clean.

Poudre Marvelo—a smooth, fine face powder which adheres firmly to the skin—the most desirable powder for warm weather. It adds the healthfulness of the skin.

We are giving you this soap because we want you to prove for yourself that it is the ideal hot weather toilet soap. Don't delay but call on your druggist at once.

medicine like dead game sports and like mer, if it does taste bad, and not like a bunch of babies. If this is done they will earn an enviable name in baseball circles throughout the league circuit. Now, of course, when we were talking of umpires above, we did not mean Wilson, for we do not consider him an umpire—he is what you would call ———, just as well not to say.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Football as Played in Labrador.

One must not imagine it is all work and no play with the Labrador Eskimos, writes Clifford H. Easton, in an article on "The People of Labrador." In Recreation. Much to my surprise, I found that our good old game of football had taken hold in Uqava. The game is played with a ball of sealskin stuffed with grass. The goals are placed much the same as in our own game, and each player is armed with a short-handled sling made of several thongs of seal hide bent in loops and attached to a wooden handle. The ball may be either tossed in the sling, kicked, or should opportunity offer, picked up and carried. Rough tactics are not barred. I have seen a man tossed in the air and pitched head foremost into a snow bank, while pushing, tripping and blocking are all freely indulged in.

NO DRAGGING OF BUNDLES

ON THE

NEW CENTURY BINDER

It Does Clean Work

A binder that does not cleanly separate the bundles from the untied grain costs a lot of your temper and time. Time is money during harvest. To avoid this loss use the New Century. The above cut tells the story. From the moment the needle appears above the grain until it returns beneath the deck, no grain is fed down by the packers. They serve to keep the grain from pressing against the needle. The revolving discharge arms do not come into contact with the untied grain. For good clean work use the New Century. If you will only let us show you the New Century and thoroughly explain it we'll be satisfied with the result for it will be another sale for us—one more satisfied customer.

Genuine Underdraft

IS TO BE HAD ON THE

ADMIRAL MOWER ONLY

THE WONDERFULLY EASY FOOT-LIFT THIS CUT ALSO ILLUSTRATES THE DIRECT UNDERDRAFT FEATURE

Every farmer knows that the greater the "Underdraft" of a mower; the better and easier that mower will do its work. Every other maker of mowers uses some device that will enable him to secure as much "Underdraft" as possible. The best of these devices, however, are but makeshifts by which at least two-thirds of the draft is applied through the pole. Walter A. Wood Mowers alone possess genuine "Underdraft." Every ounce of draft is applied through the draft rod (shown in above cut) right where it is needed. A visit to this store will make this valuable feature clear. We honestly believe the Admiral is the best mower on the market to-day and are eager to show it to you and tell you all about it.

Breaking Buffalo.

It has always been thought impos-
sible to break the buffalo or American
bison, to yoke or harness. This has
been disproved of late and Major Bob
Yokum, who has spent a fortune and a
lifetime at the work, is now in Cincin-
nati with a team of thoroughly broken
bison, which are driven to harness and
ridden under the saddle. The bison are
from his ranch in Montana where
he has about 60 head and where the
training is going on incessantly. Many
people are going out to Chester Park,
where the buffalo are kept to see the
animals work in harness. Their speed
is remarkable and their endurance
great.

Queer Assessment.

According to a Missouri paper they
have a queer way of assessing live
stock. Sullivan bought a goat for
which he paid \$5. Shortly afterwards
he received a tax bill on the goat of
\$8. He called on Rafferty, the Asses-
sor, and said, "why do you tax me \$8
on my goat, when I only paid \$5 for
him?" Well, said Rafferty, "I have
carefully read what the statute says,
and it reads, whoever owns property
abutting on the street shall be taxed
\$4 a front foot."

The Shirt Waist Girl.

The shirt waist girl, says a New
York exchange is wearing white, and
how pretty these white dresses are!
The skirts are made of linen, some
in numerous gores, and the best linens
are finished with a hem. I cannot rec-
ommend bands on a linen skirt espe-
cially the ready made one. In the first
place these bands often fray and it is
quite difficult to remedy the defect.
Again, bands make a dress skirt much
heavier and increase the cost of laun-
dry work. A skirt suitable for almost
all occasions is the seven or five gored
one, finished with a neat hem and but-
tons, if desired. There are some very
good patterns that show the white
linen skirt trimmed with flat soutache
buttons. These could be used, as
they are less liable to wring off when
the skirt is laundered. They are the
size of a nickel. It takes two and one
half yards to make five buttons of the
desired size.

The waists, as a rule, are the severe
shapes prominent among tailor-made;
others are more fragile and finished
with Swiss embroidery or laces. Per-
haps the prettiest combinations are
the white linen skirts, with waists of
the same material made with low col-
lar and short sleeves finished with
coarse embroidery—not a cheap pat-
tern, but something showy, such as
raised Japanese effects. This looks
very pretty with crochet buttons. If
anyone can afford crochet buttons, then
outline the waist with bands of all-
over embroidery and cover the but-
tons with the same. It is unnecessary
that either goods be expensive, for the
white fabric can be purchased for 10
cens a yard, and the all-over will be
about the same.

Crop Condition in Kentucky Good

The general crop conditions in Kentucky are good according to the monthly crop report issued by the State Department of Agriculture Wednesday.

The condition of the wheat crop at this time last year was 85 per cent. against 91 per cent for this year.

The largest acreage of corn has been planted in Kentucky that has been planted for years, with the possible exception of 1908.

Last year's oat crop was a complete failure, but prospects for a large yield this year.

More alfalfa is being planted each year and the crop is being better understood than ever before. Farmers are experimenting and are learning that this is the best paying crop almost that can be raised on the farm.

The prospects for clover are better at this time than has been for several years, although a little late.

A larger crop of tobacco has been planted this year than ever before and its condition at this time is good, although there has been too much wet weather, causing much neglect in many fields towards keeping out the weeds.

There is a small acreage of rye grown in the State, and 76 per cent. of the crop has been harvested. The condition is good, with prices ranging from 75c to \$1.06 per bushel, being higher in price than ever known.

The hemp condition on July 1, 1908, was 94 per cent. while this year it is 92 per cent.

There has been too much wet weather for those stripping blue grass seed. Weeds have grown very rapidly and after the seed was stripped there was too much rain to allow it to cure properly.

There promises to be the finest crop of potatoes grown in years. Prices are high now ranging from \$1.00 to \$2.00 per bushel throughout the State.

Prospects good for very large blackberry crop and are being increased by the continued rains.

McChesney followed Dr. Lewis in address in regard to the work in Bourbon.

Dr. Lewis will speak at Clays Cross Roads this morning at 10:30 o'clock and will open the campaign in Paris Saturday morning at 10 o'clock at a big rally to be held at the court house. Saturday afternoon at 3 o'clock the Hon. Jere A.
